ABOUT ME

A recent BCA graduate with a strong interest in web development, possessing foundational knowledge of HTML, CSS, JavaScript, React and Python. Eager to apply my skills in a practical environment, enhance my technical abilities, and contribute to real-world projects.

EDUCATION

GLS University | 2023-2026

Bachelor Of Computer Application (BCA)

WORK EXPERIENCE

- Fresher
-

PROJECT

- **Project 1:- Day Finder Web Application**

Developed a program to determine the day of the week from a given date using manual algorithmic logic.

Implemented date calculations without using built-in libraries.

Strengthened understanding of calendar logic and problem-solving skills

- **Project 2 :- AI Job Portal with Resume Analysis & Map-Based Job Discovery**

Developed a full-stack AI-powered job portal using MERN stack that enables resume analysis, skill extraction, and intelligent job recommendations. Implemented map-based job discovery with distance filtering and recruiter analytics dashboard for candidate ranking.
